

By-Product assessment report

BP010

Killybegs (Pelagia)

Report code	BP010	Date of issue	October 2024
--------------------	--------------	----------------------	---------------------

1. Application details	
Applicant	Killybegs (Pelagia)
Applicant country	Ireland
2. Certification Body details	
Name of Certification Body (CB)	NSF / Global Trust Certification Ltd.
Contact information for CB	NSF-MarinTrust@nsf.org
Assessor name	Dr Alex Caveen
CB internal peer reviewer name	Léa Lebechnech
Internal peer review evaluation	Agree with evaluation
Comments on the assessment	N/A
3. Approval validity	Valid from 10/2024 Valid until 10/2025

4. By-product assessment outcomes		
By-product species name	Flag country(ies)	MarinTrust approval status
Blue whiting (<i>Micromesistius poutassou</i>)	Ireland	Approved source with caution
European anchovy (<i>Engraulis encrasicolus</i>)	Ireland	Approved source with caution
Brown crab (<i>Cancer pagurus</i>)	Ireland	Approved source with caution
Norwegian lobster (<i>Nephrops norvegicus</i>)	Ireland, UK	Approved source with caution
Herring (<i>Clupea harengus</i>)	Ireland, UK	Approved source with caution
Mackerel (<i>Scomber scombrus</i>)	Ireland, UK	Approved source with caution
European pilchard (<i>Sardina pilchardus</i>)	Ireland	Approved source with caution
Sprat (<i>Sprattus sprattus</i>)	Ireland	Approved source with caution
Haddock (<i>Melanogrammus aeglefinus</i>)	Ireland	Approved source with caution
Anglerfish (<i>Lophius budegassa/piscatorius</i>)	Ireland	Approved source with caution
Thornback ray (<i>Raja clavata</i>)	Ireland	Approved source with caution
European hake (<i>Merluccius merluccius</i>)	Ireland	Approved source with caution
Atlantic cod (<i>Gadus morhua</i>)	Ireland	Approved source with caution
Whiting (<i>Merlangius merlangus</i>)	Ireland	Approved source with caution

Guidance for on-site auditor

For the audit, the auditor will check how the facility manages by-products deemed medium risk. Any by-products downrated from high to medium risk will require additional due diligence checks.

It is important that facilities check all raw materials from and verify their suppliers especially if there is a perceived risk of sourcing from known or suspected IUU fishing activity. This requires checking supplier records or procedures in place to understand how the supplier can ensure there is no IUU in the raw material they provide. For raw materials risk rated medium, additional or more frequent checks may be required until the facility is certain that the raw materials are not from IUU fishing activity.

The audit requirements are covered in clause 2.11.3 of the MarinTrust Global Standard for Responsible Supply of Marine Ingredients (the MarinTrust Standard) and associated interpretation guidance.

Approved by-products

- No further checks are required beyond those included in the MarinTrust Standard.

Additional checks of Approved Source with Caution by-products

- Review supplier records or procedures in place.

Additional checks of by-products Approved Source with Caution via Step 3 assessment

- In addition to checks for medium risk Approved Source with Caution by-products, by-products that have had risk downgraded from high to medium at Step 3 (use **Appendix 1** to identify these by-product species), confirm that the relevant traceability information continues to be collected for this by-product. During the audit, a traceability check on any by-products downgraded from high to medium risk shall be included as part of the required traceability checks (Section 4).

Guidance for the applicant/certificate holder

The applicant/certificate holder is responsible for ensuring the relevant actions are taken to comply with the MarinTrust Standard.

The certificate holder is responsible for communicating any changes to the by-products sourced by submitting a scope extension request through the MarinTrust online Application Portal.

Appendix 1 – assessment outcomes

By-product species name	Flag country(ies)	IUCN Red List	CITES Appendices	Step 2 risk status	Step 3 required	Step 3 risk Outcome
Blue whiting (<i>Micromesistius poutassou</i>)	Ireland	Least concern	Not listed	Medium risk	No	Not applicable
European anchovy (<i>Engraulis encrasicolus</i>)	Ireland	Least Concern	Not listed	Medium risk	No	Not applicable
Brown crab (<i>Cancer pagurus</i>)	Ireland	Not Evaluated	Not listed	Medium risk	No	Not applicable
Norwegian lobster (<i>Nephrops norvegicus</i>)	Ireland, UK	Least concern	Not listed	Medium risk	No	Not applicable
Herring (<i>Clupea harengus</i>)	Ireland, UK	Least concern	Not listed	Medium risk	No	Not applicable
Mackerel (<i>Scomber scombrus</i>)	Ireland, UK	Least concern	Not listed	Medium risk	No	Not applicable
European pilchard (<i>Sardina pilchardus</i>)	Ireland	Near threatened	Not listed	Medium risk	No	Not applicable
Sprat (<i>Sprattus sprattus</i>)	Ireland	Least concern	Not listed	Medium risk	No	Not applicable
Haddock (<i>Melanogrammus aeglefinus</i>)	Ireland	Least concern	Not listed	Medium risk	No	Not applicable
Anglerfish (<i>Lophius budegassa/piscatorius</i>)	Ireland	Least concern	Not listed	Medium risk	No	Not applicable
Thornback ray (<i>Raja clavata</i>)	Ireland	Near threatened	Not listed	Medium risk	No	Not applicable
European hake (<i>Merluccius merluccius</i>)	Ireland	Least concern	Not listed	Medium risk	No	Not applicable
Atlantic cod (<i>Gadus morhua</i>)	Ireland	Least concern	Not listed	Medium risk	No	Not applicable
Whiting (<i>Merlangius merlangus</i>)	Ireland	Least concern	Not listed	Medium risk	No	Not applicable

Appendix 2 – detailed assessment outcomes (step 2 and step 3 if applicable)

Step 2 outcomes

Flag state	Risk rating	Flag score	Port score	General score	Flag State is contracting party or cooperating non-contracting party to all relevant RFMOs	'Carded' under EU Carding system	Flag state party to PSMA	Flag state mandatory vessel tracking for commercial seagoing fleet	WGI Governance rank
Ireland	Medium	2.08	2.11	1.73	1	1	1	1	95.28%
United Kingdom	Medium	2.04	2.61	1.97	1	1	1	1	93.40%

Step 3 outcomes

Category C assessment

Species name		N/A	
Fishing area and stock		N/A	
C1	Category C Stock Status - Minimum Requirements		
	C1.1	Fishery removals of the species in the fishery under assessment are included in the stock assessment process, OR are considered by scientific authorities to be negligible.	N/A
	C1.2	The species is considered, in its most recent stock assessment, to have a biomass above the limit reference point (or proxy), OR removals by the fishery under assessment are considered by scientific authorities to be negligible.	N/A
Clause outcome:			N/A
<p>C1.1 Fishery removals of the species in the fishery under assessment are included in the stock assessment process, OR are considered by scientific authorities to be negligible.</p> <p><i>Add rationale here</i></p> <p>C1.2 The species is considered, in its most recent stock assessment, to have a biomass above the limit reference point (or proxy), OR removals by the fishery under assessment are considered by scientific authorities to be negligible.</p> <p><i>Add rationale here</i></p>
