

## **By-Product** assessment report

# BP100

# Vinnslustödin Fiskimjol og lysi

Marine Ingredients Certifications Ltd (09357209) |TEM-003 (previously FISH1) - Issued July 2024 – Version 3.0 | Approved by MarinTrust Fisheries Manager Controlled Copy- No unauthorised copying or alteration permitted © Marine Ingredients Certifications Ltd., for authorised use only

Report code	BP100	Date of issue	January 2025
Report code	DF 100	Date of issue	January 2025

1. Application details			
Applicant	Vinnslustödin Fiskimjol o	g lysi	
Applicant country	Iceland		
2. Certification Body details			
Name of Certification Body (CB)	NSF		
Contact information for CB	nsf-marintrust@nsf.org		
Assessor name	Sam Peacock		
CB internal peer reviewer name	Matthew Jew		
Internal peer review evaluation	Agree with evaluation		
Comments on the assessment	All listed byproducts are sourced from Icelandic vessels. Iceland is categorised as Low Risk, therefore all byproducts may be approved without the need for step 3.		
3. Approval validity	Valid from 01/2025	Valid until 01/2026	

4. By-product assessment outcomes					
By-product species name	Flag country(ies)				
Common and Latin names		MarinTrust approval status			
Mackerel, Scomber scombrus	Iceland	Approved			
Herring, Clupea harengus	Iceland	Approved			

#### Guidance for on-site auditor

For the audit, the auditor will check how the facility manages by-products deemed medium risk. Any by-products downrated from high to medium risk will require additional due diligence checks.

It is important that facilities check all raw materials from and verify their suppliers especially if there is a perceived risk of sourcing from known or suspected IUU fishing activity. This requires checking supplier records or procedures in place to understand how the supplier can ensure there is no IUU in the raw material they provide. For raw materials risk rated medium, additional or more frequent checks may be required until the facility is certain that the raw materials are not from IUU fishing activity.

The audit requirements are covered in clause 2.11.3 of the MarinTrust Global Standard for Responsible Supply of Marine Ingredients (the MarinTrust Standard) and associated interpretation guidance.

### **Approved by-products**

- No further checks are required beyond those included in the MarinTrust Standard.
- Additional checks of Approved Source with Caution by-products
  - Review supplier records or procedures in place.

### Additional checks of by-products Approved Source with Caution via Step 3 assessment

In addition to checks for medium risk Approved Source with Caution by-products, by-products that have had risk downgraded from high to medium at Step 3 (use Appendix 1 to identify these by-product species), confirm that the relevant traceability information continues to be collected for this by-product. During the audit, a traceability check on any by-products downgraded from high to medium risk shall be included as part of the required traceability checks (Section 4).

### Guidance for the applicant/certificate holder

The applicant/certificate holder is responsible for ensuring the relevant actions are taken to comply with the MarinTrust Standard.

The certificate holder is responsible for communicating any changes to the by-products sourced by submitting a scope extension request through the MarinTrust online Application Portal.

## Appendix 1 – assessment outcomes

<b>By-product species</b> name Common and Latin names	Flag country(ies)	IUCN Red List Select IUCN red list category from dropdown	<b>CITES Appendices</b> Select CITES appendix status from dropdown	<b>Step 2 risk status</b> Low risk/ Medium risk/ High risk	Step 3 required Yes / No	Step 3 risk Outcome Not applicable /Risk downgraded to Medium risk/ Remains High risk
Mackerel, Scomber scombrus	Iceland	Least concern	Not listed	Low risk	No	Not applicable
Herring, Clupea harengus	Iceland	Least concern	Not listed	Low risk	No	Not applicable
