Vessel list	A vessel list was updated on December 21 st , 2021, and it is presented in Table 3	Although, 245 of the vessels provided on the initial vessel list sent by the MarinTrust client in 2024 were not identified on the vessel list published by MSC covering this fishery, the MarinTrust client guaranteed that obtained all fish through <i>Norges Sildesalgslaget</i> , which is part of the “MSC client group project” for this fishery	Scope matches
Determination			
<p>The applicant is sourcing from an MSC fishery and the scope of the client’s application with regard species/stock/area and the MSC UoA matches. However, several vessels (~245) presented on the vessel list provided in 2024 by the MarinTrust client are not on the latest vessel list covered by MSC certification that was updated on December 21st, 2021. The MarinTrust client was contacted to confirm data of the vessel list and the following information was provided: <i>“TripleNine Vedde have full traceability of all boats that lands whole fish to Vedde through Norges Sildesalgslaget. To avoid any mistake, we will use the attached vessel list directly loaded down from the MSC webpage and cross check the list with the boats purchased from through Sildesalgslaget. By using the Vessel list from the MSC webpage we will always be sure that the latest and most updated is used.”</i> According to the MSC reassessment report for this fishery, the sales organization for the Norway sandeel and North Sea sprat fisheries is <i>Norges Sildesalgslaget</i>, which is required to record all landings of fish in Norway. <i>Norges Sildesalgslaget</i> is owned by fishermen and vessel owners and is part of the “MSC client group project”. Therefore, relying on the information that all fish of the MarinTrust client is provided by <i>Norges Sildesalgslaget</i>, which is part of the “MSC client group project” for this fishery, MarinTrust team decided that the stock is APPROVED in line with the MarinTrust Standard.</p>			

Notes for On-site Auditor

It is expected that for the following year that the MarinTrust client provide an update vessel list and act accordingly with it was said: *“we will use the attached vessel list directly loaded down from the MSC webpage and cross check the list with the boats purchased from through Sildesalgslaget. By using the Vessel list from the MSC webpage we will always be sure that the latest and most updated is used.”*

The 245 vessels listed below were on the vessel list provided by MarinTrust in 2024 and could not be verified on the latest vessel list covered by MSC certification that was updated on December 21st, 2021 for this fishery:

Assessor Guidance

HOW TO COMPLETE THIS VERIFICATION REPORT

The process for completing the template for MSC Verification is as follows:

1. Compare the scopes of the MSC certification and the MarinTrust applicant fishery. Use **TABLE 3**. definitions to complete Results section.
2. Reach a final approval recommendation. After completing Scope **TABLE 3** the assessment team will be able to provide a final decision on approval. Results shown in **TABLE 2**.
